

- *11.50 - 12.10 – Congenital myopathy. Clinical case presentation - Dana Surlica, Silvia Luca, Nina Butoianu*
- *12.10 - 12.30 – Congenital arthrogryposis – diagnostic difficulties - Daniela Stoian, Diana Barca, Nina Butoianu*
- *12.30 - 13.00 - Anterior cell horn disease - progressive or nonprogressive ? Case presentation - Mihaela Axente*

13.00 - 14.00 – Lunch

14.00 - 16.00 – Muscular disorders (part I)

- *14.00 - 14.20 - Limb girdle deficit with proximal contractures - laminopathy/congenital myopathy – Mihaela Axente*
- *14.20 – 14.50 – Slowly progressive chronic motor deficit. Clinical case presentation - Cristina Boghean*
- *14.50 - 15.05 – Muscular cytolysis syndrome. Clinical case presentation - Mihaela Vintan*
- *15.05 – 15.20 – Progressive muscular dystrophy Becker/Duchene? Therapeutic options - Macarie Mihaela, Motoescu Cristina, Anghelescu Cristina*
- *15.20 - 16.00 – Diagnostic difficulties in a case with slowly progressive chronic muscular deficit (family history) - Nina Butoianu, Dana Surlica*

16.00 - 16.30 – Coffee break

16.30 - 18.00 – Varia

- *Limb-girdle muscular dystrophy- calpainopathy type – clinical case presentation – Dana Surlica, Nina Butoianu, Alexandra Bastian*
- *Gracil, spina rigida, proximal motor deficit. What can be done? - Alina Mitel, Catrinel Iliescu*
- *Dystrophinopathies with intron mutations - Alina Mitel, Nina Butoianu, Elena Neagu*
- *Parent concerns – to respect or not standards of treatment for Duchenne muscular dystrophy – Alina Mitel, Elena Neagu, Catrinel Iliescu*
- *Global motor deficit , ataxic syndrome, WM changes- neurodegenerative/ metabolic disease - Mihaela Axente*

Day 2 , Wednesday, 22 march 2017 - 9.00 - 18.00

9.00 - 11.00 – Muscular disorders (part II)

- *9.00 - 9.30 – Diagnostic difficulties in recurrent rhabdomyolysis - Mihaela Macarie, Cristina Motoescu, Diana Barca*
- *9.30 – 10.00 – Limb-girdle muscular deficit with slowly progressive evolution. Clinical case presentation – Nina Butoianu, Oana Tarta Arsene*
- *10.00 - 10.30 – Muscle biopsy - a valuable tool for the diagnosis of neuromuscular disease? - Madalina Leanca, Alexandra Bastian, Marilena Alexianu, Elena Neagu, Ionut Secheli*
- *10.30- 11.00 –Diagnostic difficulties in a case with pelvic girdle deficit, apparently nonprogressive - Alina Mitel, Dana Surlica, Nina Butoianu*

11.00 - 11.30 – Coffee break

11.30 - 13.00 – Muscular disorders (part III)

- *11.30 – 12.00 – Progressive muscular dystrophy. Clinical case presentation – Cristina Boghean, Alexandra Bastian*
- *12.00- 12.30 – Diagnostic approach in a patient with muscular deficit of upper limbs and retractions – Dana Surlica, Nina Butoianu, Ioana Minciu*
- *12.30 - 13.00 – Diagnostic difficulties in limb-girdle dystrophy with slowly progressive evolution – Nina Butoianu, Dana Surlica, Alexandra Bastian*

13.00 - 14.00 – Lunch

14.00 - 15.30 – Peripheral neuropathies disorders

- *14.00 - 14.30 – Compressive, inflammatory or vascular cause? Sciatic neuropathy with acute onset in an adolescent - Alina Mitel, Adelina Glangher, Catrinel Iliescu*
- *14.30 - 15.00 - Diagnostic approach in a case with progressive muscular deficit (familial case) - Dana Surlica, Bogdan Ciocea, Nina Butoianu*
- *15.00 - 15.30 – Treatment difficulties in a case with rapidly progressive CIDP -Carmen Sandu, Ioana Minciu*

15.30 - 16.00 – Coffee break

16.00 - 17.45 – Varia

- *Congenital myasthenia vs myopathy - Dana Craiu, Madalina Leanca, Alice Dica, Ioana Minciu, Dana Surlica*
- *Follow up in a patient with West syndrome and Duchenne muscular dystrophy - Carmen Sandu, Catrinel Iliescu*
- *Familial case of foot deformities, peroneal atrophy, no electropysiologic changes - periferic/ central disease - Mihaela Axente*
- *Myasthenia gravis – treatment options – Dana Surlica, Nina Butoianu*

17.50 - 18.00 – Final conclusions and remarks.

Thank you for participation!
